

Creative Movement Pose Cards

26 Poses

Kid tested and approved!

Games to play:

Students move through the room to a steady beat played on a hand drum by the teacher. Strike the gong and hold up a card. Watch the students giggle with glee as they try to imitate the pose.

Variations on the theme:

1. Play a single piece of recorded music for the creative movement, when music stops, show a card.
2. Play a "mash up" of recorded music, for variations in movement through time.
3. Hold up 2 cards and have the students create a pose based on the 2 cards shown.
4. Hold up 2 cards on the pause. **WITHOUT** talking students have to find a partner and each person creates one of the poses however the 2 poses must be touching. Students must work together to have cues on which card they are making and how they are to make the poses linked.

Enjoy and thank you for stopping by!
